

Message from the Premier

Creating jobs is my government's number one priority for Queensland.

This year's budget delivers on our promises and builds on the 207,000 jobs we have supported since coming to government.

Our investment in local infrastructure will support 11,500 jobs across the region including:

- Upgrading the M1 including a better Gateway Merge and a South East Busway extension to cut congestion.
- Building better classrooms and employing more teachers and teacher aides to give our kids more one on one support.

206 new beds at the Logan Hospital to ensure you have the best healthcare.

Mick de Brenni and I will ensure that we continue to invest in the schools, hospitals and transport infrastructure your local community needs.

Jobs

Our Buy QLD policy ensures that as we build better classrooms, upgrade hospitals and cut congestion on local roads that we create more local jobs.

Health

We've hired an extra 74 doctors and 387 nurses since our election across Logan.

Education

Students are getting more one on one support with extra 413 extra teachers and 114 extra teacher aides across Logan since our election.

STANDING UP FOR SPRINGWOOD

Better roads and a busway to Springwood

We all want to spend more time with our families, and every minute is valuable.

That's why I made it a priority to get the M1 / Gateway merge fix underway.

This congestion busting infrastructure is due for completion in mid 2020 thanks to the thousands of men and women working day and night.

The M1 / Gateway merge project will provide 2,373 local jobs throughout its construction.

The Palaszczuk Government is now rolling out the extension of

the South East Busway from Eight Mile Plains to Springwood Station, including a new park'n'ride at Rochedale South.

The Busway extension to Springwood is also part of the Palaszczuk Government's plan to support 45,000 jobs through key infrastructure across Queensland.

I'll keep working on delivering better roads to make sure you get home sooner.

Busway extension from Eight Mile Plains to Springwood

MICK DE BRENNI MP

Standing up for Springwood

A busway to Springwood

Every car off the road helps ease congestion and helps reduce climate change.

That's why I'm making sure we finally extend the Busway to Springwood, including a Park 'n' Ride at Rochedale South.

Better local roads

Getting the long awaited fix for the M1 / Gateway merge underway has been a top priority for me and it's making great progress.

Building better local schools

We've got a growing community here in Springwood, which is why we are planning for the future.

So we're building 10 new classrooms at **Shailer Park SHS** and delivering a full overhaul of **Springwood SHS** to make sure that our kids get the best possible education in the best possible facilities.

A fair go for tradies

Everyone deserves to be paid for the work they do.

In this year's Budget I've made sure we can advance to the next stage of security of payments reforms, because getting paid gives local businesses confidence.

www.bit.ly/FairGo4Tradies

Savings for seniors

One of the ways we can help support our local seniors is to reduce their household costs.

This year's Budget includes:

- 20% Pensioner Rate subsidy, saving up to \$200 per year
- Pensioner Water Waste Subsidy scheme saving up to \$120 per year.

Activate! Queensland

I'm proud that we have secured additional funding for Queensland's first ever sport and active recreation strategy.

In the lead up to the release of the strategy, this Budget has funded community sporting projects across the state.

Activate! Queensland will invest more in local sports infrastructure, we'll help address barriers to participation including affordability and accessibility and women's facilities, and we'll start a new program of delivering more sport in schools. I'll keep you updated when the strategy is released.

www.bit.ly/QLDSportstrategy

More state-of-the-art sports facilities on the way

We all want our kids to get out and get active. That's why there'll be a new PCYC at **Cronulla Park** and this year we'll finalise plans for a new active sports precinct onsite for future community use.

A bigger and better Logan Hospital

We're making sure you and your family get the health care that you deserve by investing in our local hospital.

- 206 bed expansion
- 6 maternity inpatient beds
- 5 extra birthing suites
- 10 more special care nursery cots
- new birthing pools suitable for water birthing.
